

Key Figures - From January to July 2019

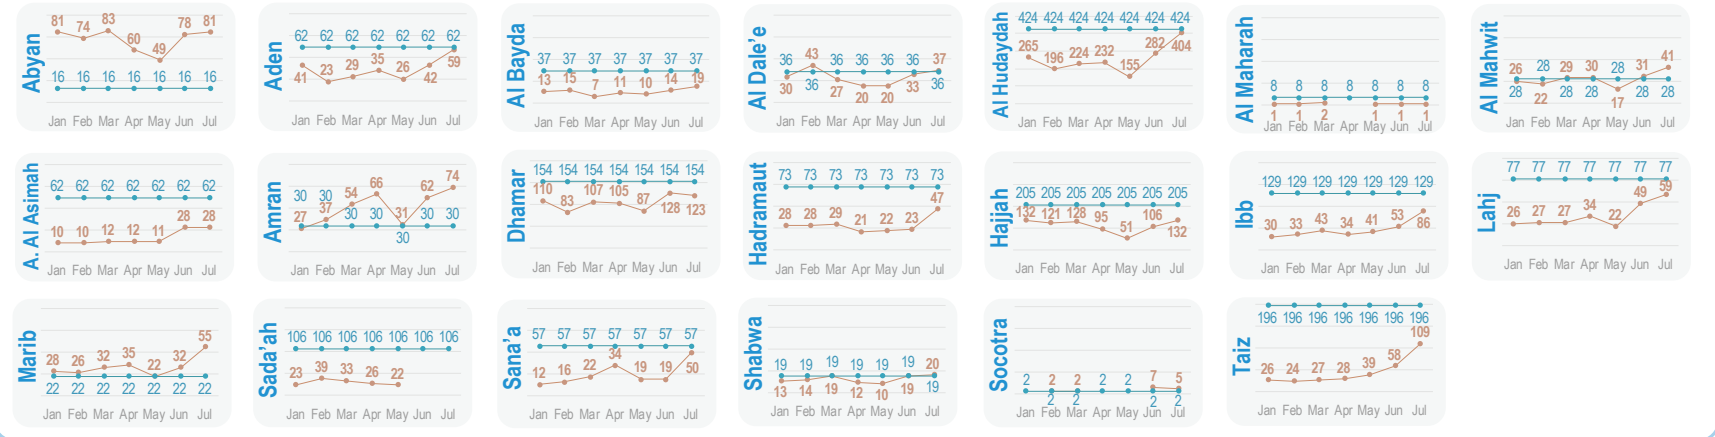

Service Utilization Jan-Jul

From Jan to July **6,732** children have received life-saving services in WHO supported TFCs, of which **1,346 (20%)** are children under **6 months**. The quality assurance services are evidenced by the decrease in the default rate and death rate. In July, the Cure rate reached 91% while the Default rate was 6% and the Death rate was only **2%**.

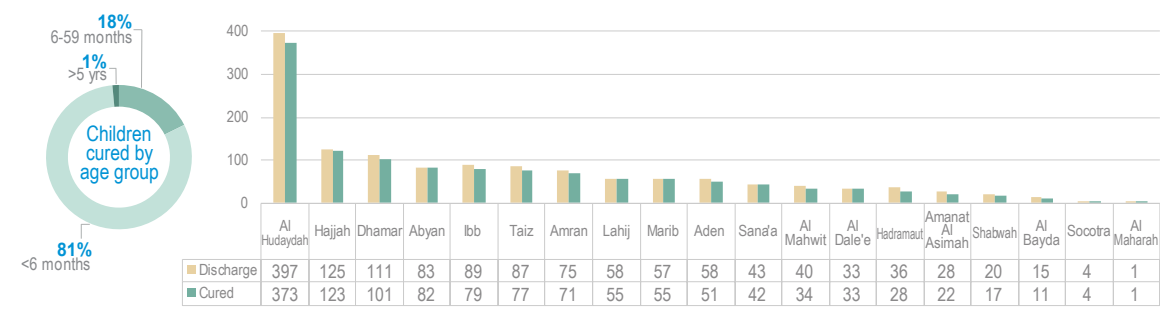

Behind each child, a caregiver was counselled on IYCF best practices, **6,732** caregivers in total. Each care giver receives **10** counselling session per hospital stay. Up to July **8,400** counselling session was conducted in **60** TFCs. The preventive measures in TFCs represented by IYCF counselling is evidenced by the decreasing in the relapse rate (**2%**)
