

# Ebola

you can protect yourself, your family and your community

## Common modes of transmission

Direct contact with:

Blood

Urine and faeces

Vomit

Other body fluids

## Common symptoms

Sudden high fever

Vomiting

Bleeding

Diarrhoea

## Prevention

### While travelling

Alert airlines about a fellow traveller who has Ebola symptoms

If you develop a fever and Ebola symptoms yourself promptly inform airline personnel

### At airports and at destinations

Avoid direct physical contact with anyone who is displaying the symptoms of Ebola

Do not touch the body of a person who has died from Ebola

Use alcohol rub throughout the day. When hands are visibly dirty wash with soap and water

Seek prompt medical attention if you have Ebola symptoms

**Tourists and regular travellers are at higher risk only when they come into direct contact with a person who is sick with Ebola**
