

HIV Treatment for All
7 Steps
to put commitment
into action

HIV Treatment for All
7 Steps
to put commitment
into action

1. Plan

- ✘ Know your epidemic
- ✘ Know the strengths and weaknesses of your response
- ✘ Identify strategic actions
- ✘ Set targets

2. Reach

- ✘ Reach out to people most in need of service
- ✘ Make available quality services
- ✘ Involve communities
- ✘ Remove barriers to access

3. Test

- ✘ Offer an HIV test
- ✘ Ensure people know their HIV test result

4. Link

- ✘ Ensure robust referral mechanisms
- ✘ Link those diagnosed with HIV to care immediately

5. Treat

- ✘ Start antiretroviral therapy
- ✘ Ensure support for adherence
- ✘ Monitor outcomes

6. Retain

- ✘ Use less toxic and easier to administer drug regimens
- ✘ Ensure people remain in care for life

7. Control the virus

- ✘ Assess viral suppression regularly
- ✘ Adapt treatment to ensure suppression
