Know more about the disease

1. You cannot get Ebola by talking to people, walking in the street or by shopping in the market

2. Ebola is transmitted through direct contact with:

3. Common symptoms are:

Headache

Sudden high fever

Extreme tiredness

Vomiting

Loss of appetite

Diarrhoea

Body pain

Be vigilant

Know the flight origin or travel history of symptomatic passengers in transit

Inform

Health authorities should be immediately informed of any suspected cases

Advise

Travellers from affected countries should be advised on what they should do if they develop symptoms

At arrival of destination, travellers should be asked to complete a health declaration form

Tourists and regular travellers are at higher risk only when they come into direct contact with a person who is sick with Ebola
